Dear Dr. Schwartz

In connection with my efforts to get for my wife some compensation from German Restitution Funds I need a doctor's certificate or letter that will state, more or less as follows.

Mike Fleimig, wife of Alfred Fleimig was your patient in the Spring of 1952. You found her at that time to be emotionally disturbed. The years that she had spent in Poland living under an assumed name on false papers, the ^{madden} loss of her parents & brother had the effect, that she repressed any memory of the happenings during the war.

Because of this, you suggested in your letter of April 21, 1952, therapy that help her resolve her emotional problems.

Mike & myself will greatly appreciate to receive such a letter from you.

Very sincerely yours

Alfred Fleimig
