Dear Werner,

Am taking the liberty of addressing you . . hope you don't mind- I have to be so formeal- you can address me as "Flo " I think we can get along better that way.

Now regarding your adfidavit I would like to say this: If you could send me Dollar 50 I know you can't send it direct—but either through your mother or sissters—I can get you here about the same time that my brother will leave. You see I am willing to put up Doll. 50 for you—but I cannot put Doll. 100—because I haven't got a great deal right now—having to help all around. If you cannot send the money them of course you will have to wait until your turn commes which of course will take a little longer.

I put your name in so can't tell how long it will take until they reach you. But if I can do it the way I suggested I will be very happy to do all I can for you.

Please notify me as soon as possible. which way it will have to be done- keep up your spirit.

I will help you to the best of my ability.

I close with kindets regards

sincerely

sign. Flo
